| 07:30 - 08:00 | **Registration and Continental Breakfast**  
Quebec Suite- 1st Floor, Fairmont Chateau Laurier Hotel | Dr. Shauna Duigenan      |
| 08:00 - 08:05 | **Welcome**  
Quebec Suite, 1st floor, Fairmont Château Laurier, Ottawa | Dr. Shauna Duigenan      |
| 08:05 - 08:25 | **Acute Pain in the Female Patient: Challenges and Pitfalls**  
Quebec Suite- 1st Floor, Fairmont Chateau Laurier Hotel | Dr. Shauna Duigenan      |
| 08:25 - 09:00 | **The Acute Abdomen in Pregnancy. Troubleshooting with MR.**  
Quebec Suite- 1st Floor, Fairmont Chateau Laurier Hotel | Dr. Najla Fasih          |
| 09:00 - 09:30 | **The Mullerians and Fallopians: Imaging of Uterine Anomalies**  
Quebec Suite- 1st Floor, Fairmont Chateau Laurier Hotel | Dr. Wael Shabana         |
| 09:30 - 10:00 | **The Indeterminate Ovarian Mass: The Good, The Bad and the Ugly**  
Quebec Suite- 1st Floor, Fairmont Chateau Laurier Hotel | Dr. Cynthia Walsh        |
| 10:00 - 10:10 | **Q&A**  
Quebec Suite- 1st Floor, Fairmont Chateau Laurier Hotel | Dr. Shauna Duigenan      |
| 10:10 - 10:30 | **Break**  
Quebec Suite- 1st Floor, Fairmont Chateau Laurier Hotel | Dr. Shauna Duigenan      |
| 10:30 - 11:00 | **Differentiating Leiomyosarcomas from Leiomyomas**  
Quebec Suite- 1st Floor, Fairmont Chateau Laurier Hotel | Dr. Caroline Reinhold    |

At the end of this presentation, participants will be able to:

1. Identify unique challenges to accurately diagnose acute pelvic pathology in females.
2. Recognize common pitfalls of gynecological imaging.

At the end of this presentation, participants will be able to:

1. List the common causes if acute abdomen in pregnancy.
2. Discuss the role of MR imaging in diagnosis.
3. Identify the classical MR Imaging findings in cases from practice.

At the end of this presentation, participants will be able to:

1. Identify various disease entities affecting the fallopian tubes.
2. Identify multimodality imaging features of mullerian anomalies and tubal pathology.

At the end of this presentation, participants will be able to:

1. Recognize aggressive or malignant imaging features of ovarian neoplasms.
2. List the major types of ovarian neoplasms.
11:00 - 11:30 The Perplexing Placenta: US and MR Evaluation of Placental Abnormalities
Dr. Shauna Duigenan

At the end of this presentation, participants will be able to:
- identify abnormal and normal imaging features of placentas.
- determine if there is mordbidly adherent placenta.

11:30 - 12:00 Uterine Malignancies: What the clinician wants to know
Dr. Caroline Reinhold

At the end of this presentation, participants will be able to:
1. Outline the role of imaging in risk stratification and management of patients with uterine malignancy
2. Illustrate the updated FIGO staging system for cervical and uterine carcinoma

12:00 - 13:30 LUNCH (on own)

13:30 - 14:00 MR of Benign Diseases of the uterus
Dr. Caroline Reinhold

At the end of this presentation, participants will be able to:
1. Explain the MRI appearance of common benign disorders of the uterus and their differentiation.

14:00 - 14:30 Gyne Case Review
Dr. Demetri Papadatos

At the end of this presentation, participants will be able to:
- to outline various benign pathologies that can mimic malignancies in the female pelvis
- to analyze and interpret pelvic masses based on their MR characteristics

14:30 - 15:00 MR Characterization of Adnexal Masses
Dr. Caroline Reinhold

At the end of the presentation, participants will be able to:
1. Describe the MR imaging findings of common adnexal pathology
2. Provide an algorithmic approach to the MRI diagnosis and differential diagnosis of adnexal masses

15:00 - 15:30 IRM foetale: anomalie foetales (présentation en français)
Dr. Julie Hurteau Miller

À la fin de cette présentation, les participants seront en mesure de:
- Reconnaitre l'utilite et les indications de l'IRM fetaal
- Reconnaitre les caractéristiques de plusieurs pathologies fetales affectant le cerveau, le thorax, la colone et les systme urinaire et digestif a l'IRM

15:30 - 16:00 Break ENGLISH

15:30 - 16:00 Fetal MR
Dr. Julie Hurteau Miller

At the end of this session, participants will be able to:
- Recognize the utility and indications of fetal MRI
- Recognize MRI characteristics of a variety of fetal pathologies of the brain, spine, chest, GI and GU systems.

16:00 - 16:30 Evidence-Based Approach to Incidental Ovarian Findings
Dr. Matthew Mc Innes
At the end of this lecture, participants will be able to:

- Apply current guidelines towards management of ovarian cysts detected by US and CT in asymptomatic women.

16:30 - 17:00  **Endometriosis: Targeted Sonographic Evaluation**  
Quebec Suite- 1st Floor, Fairmont Chateau Laurier Hotel  
Dr. Shauna Duigenan

At the end of this presentation, participants will be able to:

- identify deep infiltrating endometriosis and how to recognize it on ultrasound.

17:00 - 17:30  **Welcome Reception- Foyer**  
Quebec Suite- 1st Floor, Fairmont Chateau Laurier Hotel

---

**Saturday November 02, 2019**

_Schedule is subject to change._

07:30 - 07:55  **Registration and Continental Breakfast**  
Quebec Suite- 1st Floor, Fairmont Chateau Laurier Hotel

07:55 - 08:00  **Welcome**  
Quebec Suite- 1st Floor, Fairmont Chateau Laurier Hotel  
Dr. Shauna Duigenan

08:00 - 08:30  **First Trimester Imaging**  
Quebec Suite- 1st Floor, Fairmont Chateau Laurier Hotel  
Dr. Felipe Moretti

At the end of this presentation, participants will be able to:

- Define viability and pregnancy location
- Demonstrate early fetal anatomy
- Assessing common fetal anomalies

08:30 - 09:00  **Fetal Soft Markers in the age of NIPT**  
Quebec Suite- 1st Floor, Fairmont Chateau Laurier Hotel  
Dr. Ana Werlang

At the end of this presentation, participants will be able to:

- Determine the most appropriate diagnostic interpretation and up-to-date management of fetal soft-markers on ultrasound
- Critically analyze the role of soft markers in light of NIPT

09:00 - 09:30  **Evaluation of the Placenta and Fetal Growth Restriction**  
Quebec Suite- 1st Floor, Fairmont Chateau Laurier Hotel  
Dr. Felipe Moretti

At the end of this conference, participants will be able to:

- Define fetal growth restriction
- Describe fetal circulation in FGR
- Ultrasound evaluation of FGR

09:30 - 10:00  **Placenta: The Obstetric Surgeon’s Perspective**  
Quebec Suite- 1st Floor, Fairmont Chateau Laurier Hotel  
Dr. Dong Bach Nguyen

At the end of this lecture, participants will be able to:

- Identify a plan for women scheduled for surgical management of invasive placental disorders
- Describe pertinent findings in invasive placental disorders which will facilitate surgical approach

10:00 - 10:20  **Break**  
Quebec Suite- 1st Floor, Fairmont Chateau Laurier Hotel

10:20 - 10:40  **Endometriosis: Showcase of MR Findings**  
Quebec Suite- 1st Floor, Fairmont Chateau Laurier Hotel  
Dr. Claudine Michaud

At the end of this presentation, participants will be able to:

- Identify sequences options for pelvic MRI
- Recognize and identify the diagnostic findings for both endometrioma and deep invasive
### Endometriosis: A Specialist Surgeon’s View
Quebec Suite- 1st Floor, Fairmont Chateau Laurier Hotel

At the end of this session, participants will be able to:
- Identify the critical imaging details necessary to aid in surgical management of endometriosis
- Prepare a plan for imaging for patients with deep endometriosis

### Errors in Gynecologic Imaging
Quebec Suite- 1st Floor, Fairmont Chateau Laurier Hotel

At the end of this presentation, participants will be able to:
- Create a list of key findings not to miss during gynecologic imaging evaluation
- Apply standard algorithms for investigating pregnancy of unknown origin
- Illustrate common errors in women’s imaging including explaining ways to decrease cognitive and satisfaction of search errors

### LUNCH
On Own

### O-Rads: Lexicon & Management
Quebec Suite- 1st Floor, Fairmont Chateau Laurier Hotel

At the end of this session the participant will be able to:
- Recognize the importance of a lexicon
- Experiment with the O-RADS Risk Management Strategy

### Obstetrical Imaging: Urgent and Emergent. Part 1: Urgent
Quebec Suite- 1st Floor, Fairmont Chateau Laurier Hotel

At the end of this presentation, participants will be able to:
- diagnose conditions requiring urgent care in obstetrical imaging
- describe appropriate management for these conditions

### Pelvic Floor Imaging
Quebec Suite- 1st Floor, Fairmont Chateau Laurier Hotel

At the end of this presentation, participants will be able to:

### BREAK
Quebec Suite- 1st Floor, Fairmont Chateau Laurier Hotel

### Post-partum Imaging
Quebec Suite- 1st Floor, Fairmont Chateau Laurier Hotel

At the end of this session the participant will be able to:
- Contrast the normal versus the abnormal postpartum imaging appearance of the uterus.
- Recognize potentially life-threatening complications.

### Obstetrical Imaging: Urgent and Emergent. Part 2: Emergent
Quebec Suite- 1st Floor, Fairmont Chateau Laurier Hotel

At the end of this presentation, participants will be able to:
- diagnose conditions requiring emergent care in obstetrical imaging
- describe appropriate management for these conditions

### Question and Answer Period/Closing
Quebec Suite- 1st Floor, Fairmont Chateau Laurier Hotel

Dr. Shauna Duigenan
